## PROFILE

Full Stack .NET Developer with hands-on experience building and deploying secure web applications using ASP.NET Core Web API, Angular, Entity Framework Core, and SQL Server. Built and deployed an enterprise-grade Knowledge Management System from scratch, covering backend APIs, authentication, frontend development, database design, and cloud deployment. Passionate about building scalable software using clean architecture and modern engineering practices.

## TECHNOLOGY STACK

Programming: C#, SQL, TypeScript, JavaScript, HTML5, CSS3

Backend: ASP.NET Core Web API, Entity Framework Core, Dapper, LINQ, REST APIs, JWT Authentication, Refresh Tokens, Repository Pattern, Dependency Injection, Middleware, Role-Based Authorization

Frontend: Angular, Bootstrap, Reactive Forms, Standalone Components, Routing, Route Guards, HTTP Client, Markdown Rendering

Database: SQL Server, Azure SQL Database, Stored Procedures, Views, Joins, Indexes

Cloud & Deployment: Azure SQL Database, Render, Vercel, Cloudinary

Developer Tools: Git, GitHub, Postman, Swagger, Visual Studio, VS Code

## ENGINEERING PROJECTS

### Secure Knowledge Management System (SKMS)

Enterprise Knowledge Management Platform | Angular | ASP.NET Core Web API | SQL Server | Azure SQL

Designed and developed a production-ready enterprise Knowledge Management Platform enabling secure creation, management and publishing of technical documentation. Built the application from scratch and deployed it to the cloud.

- Designed scalable REST APIs using Repository Pattern and Dependency Injection.
- Implemented JWT Authentication, Refresh Tokens rOTAION and Role-Based Authorization.
- Built responsive Angular UI with Reactive Forms, Markdown Editor, Syntax Highlighting and Route Guards.
- Developed CRUD modules with validation, standardized API responses, global exception handling and server-side pagination.
- Integrated Azure SQL Database and Cloudinary.
- Deployed Backend on Render and Frontend on Vercel.

## EDUCATION

B.Tech – Computer Science & Engineering (AI & ML)

St. Mary's Group of Institutions (JNTUH) | 2025 | CGPA: 6.8

Class XII: 83% (2022) | Class X: 70% (2019)

## CERTIFICATIONS

- ASP.NET Core Web API & Angular Full Stack Development (Udemy)

**CURRENTLY EXPANDING EXPERTISE :** Microservices • Docker • Azure Cloud • AI Integration
